

Please do NOT censor our XM radio! We pay for the service they provide because we like the type of radio, which is much better than commercial radio stations that is more a bother than a pleasure to listen to!  
Please reject NAB's petition 04-160. This is OUR radio, all we listen to and all that we want to listen to.

Commercial FM radio stations broadcast commercials constantly and makes it unbearable, not to mention the horrible sound quality. XM gives us exactly what we want: Entertainment WE can choose without annoying interruptions.

We choose XM the way it is every time.

Regards,  
Keld Petersen.
